A THRONG OF NEW GUESTS PLOCKING IN TO TAKE THE PLACES OF THOSE WHO DEPART.

Lake George, N. Y., Aug. 25 (Special).—For several years it has been the custom to have, during this month, a grand carnival on the lake, with a parade of gayly decked boats representing familiar historical events, and ending at night with balls at the large hotels, illuminations, fireworks and the like. This, the gala day of the season, will, for some unknown cause, be omitted this year, much the regret of these who have seen the carnival

A feature that is sure to impress the visitor who travels to the lower end of the lake is the warm ception with which he is greeted as the steamat approaches the hotel landings. A merry crowd young people congregated at the dock will, as boat touches shore, break out into vociferous yells, each hotel having its own peculiar call. At one large hotel the younger element wear broadbrimmed hats, gorgeously decorated with bright colored tarietan, no difference being observed beween the girls' hats and those of the men. of the latter wear also, about their necks, large placards bearing such startling inscriptions as Try our root beer. It will surely do you no good. When I was young they fed me on Blank's Syrup!" The effect of the scene from the boat is novel and interesting, and is sure to inspire

passenger with the wish to stop longer at a place where so hospitable a greeting is accorded him. At the hotels in Caldwell the last few days have een uneventful, the people having determined, so it seems, to enjoy the rest of the season in a quiet As if to make up for the lack of gayety at the hotels, the village of Caldwell has been unusually lively, owing chiefly to the presence of the G. A. R. encampment of Warren County. The camp, which has been visited by all the summer lonists, as well as by the inhabitants of the town, is picturesquely placed at the foot of Mount Fergu-son, facing the lake, and is fitted out with all the ories of tent life. Wednesday, the grand rally ing day, was a great occasion for the veterans, who took part in the parade through the principal streets of the town, after which they listened to inspiring reminiscences of the war by prominent speakers. One of the gayest and most attractive hotels on the lake is the Marion House, on the west shore, six miles from Caldwell. There are lots of young

people spending the summer at the Marion, and they seem to have succeeded well in their determination to have a jolly good time. The regular Saturday evening hops are more than commonly interesting, many guests coming from neighboring hotels and cottages, so that the ballroom is never less than full. Among the entertainments of the week may be mentioned the launch party on the Marion, the steam yacht owned by Mr. William Sherman. After visiting points of interest on the the return trip was made by early moonlight. On Wednesday evening an excellent minstrel show was given by the men of the hotel, the large diningroom being utilized for the occasion, and proving, under the skilful hands of the decorative committee, an admirable theatre. Those taking part in the performance were Messrs. Power, Pressenger Shipman, Judson, Kiernan, Bearns, Seaman, Shire, Spencer and Field. A regatta is in prospect for next week, sixteen entries having already been The races will include ladies' singles and doubles, men's singles and doubles, and mixed

Pearl Point and the Hundred Island houses, neighboring hotels, are on one of the most beautiful parts of the lake. The islands of the narrows are visited by residents here, who desert hotels during the daytime for the more alluring attractions found on the water. Weekly germans are given at each of the hotels, other evenings being given to more informal amusements. On Tuesday evening a legerdemain performance was the programme. On Friday evening a bean-bag party was given, on Saturday a progressive suchre party, and so on through the whole catalogue of

Master William Noble, jr.; George Holmes, Edward Ellis and Miss Fannie Lowenstein have also unusual skill in this healthful and graceful exercise.

The Lake House baseball team have at last, after season of victories, suffered an inglorious defeat by the Ampersand team, who on Tuesday won a game, the score being 10 to 4.

Crosbyside has also been indulging in friendly contests with the neighboring hotels. Bowling seems to be the popular amusement of the day, a series of games having been played during the week with the men of Fort William Henry and the Lake House. Two of the games were won by the former and the last by Crosbyside. A tennis tournament was held last week which

excited great interest in all the vicinity. Miss Grace Darling won the ladies' singles, H. B. Miner the men's singles, and E. Kempner Shrady and

Dr. Herrick Johnson, of Chicago; Joseph Cook, of Boston, and Eishop John P. Newman, of Omaha. Representatives of every State in the Union were included in the audience. The following resolutions

were adopted:

Resolved. That we rejoice in and indorse the recent decision of the Supreme Court of the United States that "this is a Christian Nation."

Resolved, That municipal missovernment is one of the darkest portents in our future, and that the immense mischief owes its origin chiefly to the political sovereignty of the saloon, and that now is a most opportune time to follow up victories for the Sabbath by attacking the Sunday saloon and the liquor traffic with all the weapons known to the State, the Church, the school and the home.

Resolved, That we see in such contrary decisions as that of Judge Stein of an inferior court the necessity for putting the decision of the Sunday saloon and the necessity for putting the decision of the Sunday salon and in the sunday in the necessity for putting the decision of the Sunday is in our fundamental law.

Resolved, That we rejoice in the World's Fair Sabbath-closing law, and in the equally impressive failure of Sunday opening, and we urge that these great victories be vigorously followed up with State and local victories over Sunday papers, Sunday trains and Sunday mails.

Resolved, That we recognize the Church of Christ as the chief of reform organization and Feligion as the very heart of all reforms.

NIGHT IN NEWPORT.

CHARACTERISTIC SCENES IN THE OLD TOWN-SAILORS THRONG THE STREETS WHILE DANCERS FILL THE PALACES.

Newport, R.J., Aug. 26 (Special).—To see all the picturesqueness of Newport life one should be on Belleview-ave, in the afternoon and on Thames-st. in the evening. Few streets in the world are so pict-uresque as is Thames-st, after nightfall, especially in the yachting season, when the harbor is crowded with yachts and the narrow street along the harbor front is crowded with sailors. The afternoon parade of splendid equipages in Belleview-ave, has ceased. It is dinner-time in the great villas on the hill, and the lights shine on tables sparkling with cut glass and silver Later there will be the out glass and sliver. Later the wait to the sound of music and dancing coming from the Casino and from some of the stately villas, and society will disport itself after its wont. Down in Thames-st, another phase of life is palpitating, strong, vigorous and picturesque. The lights on the yachts in the harbor dot the surface of the water with many the lightlewess on the break. shining points, and the lighthouses on the breakwater and on Lime Rock flare through the night.

At the landing stages boats are constantly arriving and departing filled with bronzed, bare-throated sailors, strong of limb and frank of countenance, Some are in sailor suits of white, and some are blue, and they surge in groups up and down the street from where the illuminated clock on the an-cient State House marks off the hours to a short distance below the postoffice. The doors of the liquor shops swing incessantly, but a drunken man is a rare exception. All are hale fellows well met, and every now and then the narrow sidewalk is blocked while one sailor effusively greets a former shipmate whom he notices in the crowd. It may be that they recall when they were together when the winter gales blew off Cape Horn, and on a rocking yard high above the stormy water they grappled with the royal, wind-filled and hard as a board with ice. But the crowd surges around them, and in the crowd are other uniforms than those of yachtsmen, for soldiers from the fort and navy sailors from the Training Station and the Torpedo Station are there. Yacht owners in jaunty uniforms, with the crossed gold anchors in their caps, and their guests in suits of white or blue roll by in carriages on their way to the palaces on the hill or the clubs, and the few citizens moving about in the bright assemblage of

uniforms make black spots in the throng. In the telegraph offices the machines are ticking. and alongside the operators sit reporters writing as fast as their matter is being sent, of the yacht races, the polo and lawn-tennis games and the doings of society. Cool breezes blow in from the ocean and flood all Thames-st. Laden with the salt breath of the ocean, they wander at the open windows and blow about the "copy" of the reporters. Gradually the noise of many voices ceases, the crowd thins out, and when the State House clock proclaims the hour of midnight all the long, narrow street is deserted, save by a few night prowlers who lurk about in dark corners. The sailors from their barracks, and the weary telegraph operators and reporters are at rest for the night. On the hill the world has not yet gone to bed, nor will the life and motion be all ended there until the first faint streaks of dawn shall show in the east and "throned on ocean's cheek" the day shall "blush o'er all the world." and alongside the operators sit reporters writing as

SEVERAL PEOPLE NEARLY LOST THEIR LIVES AT BLOCK ISLAND. Block Island, R. L. Aug. 26 (Special).—Those who have been here during the last week have had an

opportunity seldom vouchsafed to summer residents to see two big storms, a northeaster and a southeaster. Last Sunday night and Monday the wind blew from the northeast at an average rate sixty miles an hour, reaching its maximum at 12:05 m. Monday, when the anemometer in the Weather Bureau Building registered a velocity of seventy-two miles for a short time. There was a rainfall during the twelve hours ending at 8 a. m. Monday of 2.64 inches. The whole bay from Clay Head to Old Harbor Point was one seething mass of foam. Hundreds of people thronged the pier on the east side of the inner harbor, holding on to each other and to any object that was stationary, while clouds of spray were thrown high in air to ige is fall again in the inner harbor, or carried in by the most beautiful scene of all was just at sunset, when the purple light, shining through the spray, flected all the colors of the rainbow. ASPURY PARK AFTER THE STORM.

CROWDS VISIT THE WRECK OF THE MARY KELLY - OUTINGS FOR WORKING GIRLS-HOTEL ARRIVALS. Asbury Park, N. J., Aug. 26 (Special).-The crowds are still here, but the exodus will begin on Monday, and for two weeks after that the sum

mer population will slowly dwindle away. the September contingent remains. It is expected, however, that the number of those who stay late will be greatly increased this year. To meet the demand the Hotel Brunswick and many of the smaller hotels will remain open till October 1. The one great feature of the week was the storm that swept along the coast early Thursday morning. Nothing like it had been known for many ing. Nothing like it had been known for many years, and the old timers who have delighted in telling stories of the storms of half a century ago were speechless in the presence of the disaster wrought in a few hours by this last visitation. It is impossible to estimate with any degree of exactness the resulting loss, but it is certain that damage was the worst experienced in years, Fortunately, Asbury Park escaped with less than its proportionate share of loss, but the resorts north and south of here suffered terribly. wreck of the Mary Kelly, at the foot Sixth-ave., has since Thursday been visited by practically all the residents of Asbury Park and Ocean Grove. Each visitor wanted a relic of the wreck, and the sails and torn rigging of the boat were carried away in small bits,

James A. Bradley has gone to the mountains in anticipation of his annual attack of hay fever. A strong list of speakers has been arranged for the services at the seaside auditorium to-morrow. Among them are the Hon. Roswell G. Horr, of New-York, who will speak on "Bread and Butter" at the National service in the afternoon, and the Rev. Frank De Witt Talmage, who will give the evening sermon. Colonel H. H. Hadley of St. Bartholomew's Mission, New-York, will have charge of the Christian Endeavor service.

The Sea Rest is to be enlarged. It has long been maintained by the Women's Chrislong been maintained by the Women's Chris-tian Association as a home for the entertain-ment during the summer months of hundreds of young women who are compelled to earn their liv ing, and whose scanty salaries would not permit them to enjoy a seaside vacation if it were not for the assistance given by this association. The present building is too small to accommodate the great number of deserving applicants, and efforts are being made to raise money for the proposed enlargement. REGINNING THE END AT LONG BRANCH.

THE SEASON WANING, BUT MANY GUESTS STILL LINGER TO ENJOY SPPTEMBER BY THE SEA. Long Branch, N. J., Aug. 26 (Special).-Although the season is well on the wane, Long Branch is best seen and enjoyed in the delightful month of September, when it is free from the loud and objectionable element of society that affects the races, as well as the riff-raff that dances attendance upon

The solid substantial and old-time summer residents of this great resort now emerge from their enforced retirement, and with the added number of usual late season arrivals the place wears an aspect of solidity and respectability, strangely in contrast with the feverish and giddy scenes of midsummer. The social events that take place durreal society of Long Branch and its neighboring resorts of Elberon. West End, Hollywood and Seabright, and are regarded as the crowning giory, of society's summer festivities.

Monday evening Messrs. Martyn & Edgerton, pre-prietors of the Hotel Brighton, tendered a birthday dinner to T. J. Laud-Brown, of England, who has been spending the summer at the hotel. IT IS JUST GOVERNOR.

Round Lake, N. Y., Aug. 26 (Special).—When Governor Flower paid a visit here a few weeks ago a great question arose as to now he should be addressed. All but one or two concurred in the idea that "Your Excellency" was the proper and appropriate title, hesides being rounded out in about the proportions suitable to the dignity of a Governor. A great many needle, who, declared, they had been internate with people who declared they had been intrinste with Governors, and even one Assemblyman who pre-sumably had been well acquainted with such dignitaries, held to the same effect. Books and dictionaries even seemed to back them up, and more than aries even seemed to back them up, and more than all the Red Book, in quoting the formula of a committee of the Legislature waiting on the Governor, allows them to say "Your Excellency." One man, however, who had reason to believe that plain "Governor" was all that was required, sent a letter to Governor. The Williams the review secretary of the related to the results of the related to the results of the related to the rel "Governor" was all that was required, sent a letter to Colonel T. S. Williams, the private secretary of Governor Flower, who was also the private socretary of Governor Hill. His reply may be worth quoting as setting at rest in a peculiarly emphatic manner a question which in fact is not understood in the minds of many people more distinguished in public affairs then any of the people of Round Lake. The reply is as follows: "I know of no law, custom or etiquette that makes it proper to aw, custom or request that an indices it proper that of Governor, whether it be in personal conversation with him or in a public decument or address. Some people address him as 'Your Excellency,' but there is no warrant for such a title either in the Constitution or law or rules of effective or common-sense."
